

The whole country watched in awe as millions held hands across America for a brief moment in history. In this longest human chains, our participation was quite visible as usual.

HIGH TIMES

YEAR OF PEACE, 1986

As the year, 1986 draws to a close, we find ourselves witnessing violence and destruction all about us, and living with the knowledge that weapons exist that can completely destroy this planet and make it uninhabitable for centuries.

We recognize that it is customary in the cosmic scheme of things for the transition from one great Age to another to bring chaos and upheaval, but we also understand that our power, through prayer, to transmute and channel this destructive energy is unlimited.

This is also a time when people of faith are rising up and saying with

one voice, "PEACE." The positive polarity to the dismal trend of current society is the emergence of a unity of people of many diverse cultures, religions and political affiliations who are putting aside their differences and honoring their common human desire to survive by working and praying for peace.

It is truly a time of great spiritual joy and tremendous growth because of the enormity of the challenges that we all face.

1986 was declared the "YEAR OF PEACE" by the United Nations. Knowing that Peace needs Prayer, the Siri Singh Sahib planted the seed

for Peace Prayer Day 1986, in June of 1985 at the Summer Solstice Celebration in New Mexico. Well, the result of his inspired idea was an event that was magnificent!

HANDS ACROSS AMERICA

Of course 3HO folks all across the continent participated in "Hands Across America," standing in the gigantic line that stretched from California to the New York Harbor, making a statement, declaring a mutual human concern for the plight of those who are hungry and homeless (and helping raise money to feed them).
